## 21mm Deep Graphic Tension Frame

Designed for slimline, non-illuminated, wall-mounted or suspended displays

A versatile display solution, the frontlit VF21 tension frame from Leach can be wall-mounted, suspended or affixed to a ceiling for a wide array of show-stopping internal displays. Compatible with a range of acoustic panels to reduce echoing and reverberations, this frame is also ideal for environments where noise reduction is key. Its strong structural frame can be enhanced with the addition of cross-beams to achieve complete rigidity and maintain the perfect degree of tension in your graphic, whatever size frame you require. Crossbeams can also make the VF21 easier to install. For retail applications, request the magnetic Product Wall display upgrade, whereby an internal steel composite board is installed to which shelves, hooks or rails can be fixed. With interchangeable graphics, the VF21 will keep your interiors, stores and exhibitions looking fresh for the long-term, with a reduced environmental impact to boot.

Frame							Applications			
Depth (mm)	Min. Size (m)	Max. Size (mm) Freestanding	Fabric Graphic	Rigid Graphic	Curved Shapes	Double-Sided	Wall-Mounted	Column Wrap	Suspended	Freestanding

PROFILE  
CROSS-SECTION

## Specifications

- 21mm deep aluminium tension frame for fabric graphics
- Available in sizes up to 25m x 5m specifications to suit any space. Alternative sizes are available in the wider VF range
- Larger VF21 tension frames can be supplied in sections for ease of transport and installation
- Screw mounted to the wall or ceiling through the frame for hidden fixings and improved aesthetics or suspended using discreet eyebolts

## Customisable Options

- Silver anodised finish as standard with the option to powder coat to any standard RAL colour
- Choose a retail-ready lightbox with the addition of our Product Wall shelving and accessories
- For enhanced rigidity, add crossbeams to the structure
- Compatible with a range of acoustic panelling up to 20mm deep, to prevent reverberation and echoes
- Can be fitted with an internal steel composite board to allow for our magnetic Product Wall system to be utilised

## Eco-friendly Credentials

- Manufactured from widely recycled aluminium
- Built for a lifetime, the VF21 tension frame allows printed graphics to be updated without professional installation
- Tension frames and printed graphics are eligible for the Leach back-to-base recycling scheme\*

## Compatible Graphics

- We recommend that the VF21 is paired with our Eco-Screen tension fabric, which delivers a high-definition finish for printed graphics
