45mm Deep Graphic Tension Frame

Designed for double-sided, non-illuminated graphics in a freestanding or suspended display with the option of 3D or curved shapes

A versatile tension frame unit suitable for museums, exhibitions and retail settings, the VF45 is a highly popular solution for internal displays. With double-sided frontlit fabric graphics, it affords brands twice as much branding space as wall-mounted frames, making it ideal for high traffic areas. To create stunning 3D installations, you can request the VF45 tension frame with convex or concave edges, or as a suspended canopy. Curved frames can also be fabricated to create a uniquely-shaped display. With interchangeable fabric graphics, the VF45 represents a fast payback on investment whilst minimising the environmental impact of your exhibit. Exceptionally easy to assemble and dismantle using only two Allen keys, the VF45 also breaks down into a kit form that's convenient for shipping and storage. What's more, you can customise the VF45 with coloured frame finishes for a unique, attention-grabbing solution.

Frame								Applications			
Depth (mm)	Min. Size (m)	Max. Size (mm) Freestanding	Max. Size (mm) Suspended	Fabric Graphic	Rigid Graphic	Curved Shapes	Double-Sided	Wall-Mounted	Column Wrap	Suspended	Freestanding
45	0.4 x 0.4	4 x 2	25 x 5	●	○	●	●	—	●	●	●

Suitable For:

- Freestanding and suspended non-illuminated displays
- Convex and/or concave displays
- Exhibitions and retail spaces – its double-sided display is ideal for store windows
- 3D displays such as column wraps using a 90-degree corner joint and vertical profile
