65mm Deep Graphic Lightbox

Designed for wall-mounted displays with exceptionally bright, uniform LED illumination

Enhance any indoor environment with the VF65 lightbox from Leach. A stunning addition to any retail space, exhibition stand or visitor attraction, the VF65 is a versatile and durable display that's sure to capture the attention of your audience. Season after season, event after event or campaign after campaign, the unit's printed graphics can simply be switched out to suit, reducing costs and minimising the environmental impact of keeping your visuals up to date. What's more, you can customise your lightbox with a range of lighting controls, colour temperatures, frame finishes and accessories for a unique, show-stopping display solution.

Specifications

- 65mm deep aluminium tension frame for fabric graphics
- Illuminated VF65 lightboxes use a composite aluminium panel backboard with 6500K IP20 LED strips as standard
- Available in sizes from 0.4m x 0.4m to 5m x 3m to suit any space. Alternative sizes are available in the wider VF range
- Energy-efficient power consumption of 95W/M2 as standard
- Larger VF65 lightboxes can be supplied in sections for ease of transport and installation
- A choice of Internal or external power supplies
- Screw mounted to the wall through the rear of the panel for hidden fixings and improved aesthetics

Customisable Options

- Silver anodised finish as standard with the option to powder coat to any RAL colour
- Freestanding or suspended configurations can accept a non-illuminated fabric graphic to the reverse of the frame for dual-aspect branding potential
- Available with corner profiles to encompass columns and corners
- Display rigid graphic panels instead of fabric graphics with the addition of a VFT profile
- For warmer shades of illumination, LEDs are available in 5000K, 4000K and 3000K colour temperatures
- Cut running costs by specifying high-efficiency eco-LEDs which consume only half the power of standard LEDs with no compromise to brightness
- Various control options include remote-control dimmers, DMX or DALI controls, RGB colour changing, LED Pixel controls and Casambi controls
- Choose a retail-ready lightbox with the addition of our **Product Wall** shelving and accessories
- Swap out the composite aluminium panel backboard for a flexible backing sheet, ideal for flat pack transportation and installation in spaces with restricted access
